

## Children First Foundation *Creating Miracles* Golf Tournament Partnership Proposal

# *Creating Miracles*

Children First Foundation together with our supporters have been creating miracles by facilitating life-saving and life-changing surgery for disadvantaged children from developing countries since 1999. During this time over 300 children have received transformational surgery.

Together with our wonderful supporters, collaborative relationships and partners we are able to bring the wishes of children and their families to life.

The end-to-end care we provide is a holistic model that encompasses the emotional, physical and cultural needs of each child, enabling them to integrate back into their family, community and school life.

Become a 'Miracle Worker' and help to transform children's lives like Koko and Angel pictured here. A wonderful outcome for both children returning home healthy, happy and with hope for the future.
